F 600	Continued From page 7 This deficient practice was identified for [redacted] of [redacted] residents reviewed for abuse (Resident [redacted] Resident [redacted], who had diagnoses which included [redacted] [redacted] [redacted] reported on [redacted] [redacted] an Agency Nurse (Licensed Practical Nurse (LPN #1) became verbally abusive with him/her when their scheduled [redacted] and [redacted]) was requested. The resident reported LPN #1 closed the door to his/her room which triggered the resident's [redacted]. The resident indicated that they had a history of imprisonment, which caused the feeling of entrapment with closed doors and feelings of anxiety. Resident [redacted] reported that when they tried to exit the unit to find help, LPN #1 prevented them from leaving by holding the handlebars of the wheelchair (w/c). He stated that CNA #1 further prevented him/her from "escaping the anger" that LPN #1 exhibited towards him/her, by blocking the exit doors and preventing him from leaving. The resident reported that this made them "angry" because all they wanted was to leave, and the resident could not understand why they were not permitted to leave the unit to find help. During a review of video surveillance footage, it was observed that the resident self-propelled in the wheelchair, and LPN #1 moved alongside the resident towards the closed exit doors of the unit.	F 600	prepared and/or executed solely because it is required by the provisions of federal and state law. The facility respectfully disagrees with these findings, notwithstanding the following actions have been taken: Element One - Corrective Actions > LPN #1 who was alleged to have mistreated Resident [redacted] was immediately removed from the facility, the agency notified and LPN#1 was placed into Do Not Return status with the agency. > CNA#1 and CNA#2 were interviewed, counseled, and received re-education regarding facility policies for the prevention of abuse including involuntary seclusion and completing accurate statements during investigations of allegations of abuse. > The social worker met with Resident [redacted] and obtained a written statement clarifying the events of [redacted] and provided re-education to re-enforce reporting concerns immediately to the supervisor. Element Two - Identification of at Risk Residents > All Residents have the potential to be affected by this practice. Element Three - Systemic Change > Agency nurses are provided with facility orientation packet including the facility abuse and neglect policies prior to the first shift in the facility. > Staff were re-educated regarding the

F 600	Continued From page 13 On 08/19/22 at 11:59 AM, the surveyor interviewed LPN #1 via telephone who stated she was an Agency Nurse assigned to the facility that day [REDACTED] and received no information from the facility prior to the start of her shift. LPN #1 stated to a degree she understood that the resident was right, but the resident made racist remarks to her and weaponized their wheelchair rolling over her feet. LPN #1 stated that the medication cart was in front of his/her room since she was trying to administer the resident's medication and he/she started pushing the medication cart at the nurse. LPN #1 stated a nurse informed her Resident [REDACTED] had to receive their medication on time and she apologized that the medication was a few minutes late and she started to prepare the medications. The resident proceeded to press the call bell and started yelling and cursing at her to administer the medications and he/she was going to call administration. LPN #1 stated that she tried to calm the resident down but he/she started making derogatory racial remarks to her telling her that she was yelling at them. The resident then got out of bed and charged in their wheelchair at the medication cart yelling and cursing. LPN #1 stated that she told the aides to get the Supervisor. LPN #1 stated she was unaware if the resident had any behaviors and the two CNAs were telling her to stop the resident from leaving the unit and she had no idea why the resident could not leave the unit; if the unit was a lockdown unit or the resident was on COVID-19 restrictions, but she was the closest staff to the resident so she grabbed the back of the wheelchair to stop the resident. LPN #1 further stated that she did not know the two	F 600

CNA #1 was observed exiting Resident Room [redacted] which was located on the right side directly next to the closed exit doors and proceeded to position herself directly in front of the resident. There was no audio, but it could be determined that there was a verbal exchange between the resident and staff. LPN #1 then grabbed the back of the handlebars of Resident [redacted] wheelchair, which changed the resident's direction from facing forward towards the exit doors to now facing towards Resident Room [redacted]. The resident was trying to get away but was being restrained by LPN #1, who was still holding onto the back of the wheelchair, which caused the front wheels to lift off the ground, causing the resident to recline in the w/c. CNA #1 then stood in front of the exit door and blocked the resident from having access to exit. CNA #2 was observed walking up the hallway towards LPN #1, CNA #1, and the resident and it can be observed CNA #2 was engaging in the</p>	F 600

F 600	Continued From page 17 another surveyor viewed the video footage. The surveyor asked the DON, when comparing the surveillance footage with the statements if the statements clearly reflect what had happened. The DON reported that she completed a three-page reportable to the New Jersey Department of Health (NJDOH) and told RN #1 to watch the video to see if anything should be added to her statement, and then the DON reported she left for vacation. The DON stated that the ADON had watched the video with RN #1 who did not want to change her statement. The DON stated the purpose of an investigation was to determine a root cause analysis and confirmed these statements were not clear. The DON stated when she returned from vacation, the investigation was completed by the ADON and she did not review it even though she was responsible for oversight of all aspects of nursing. The DON confirmed the resident had the right to leave the unit and no staff, including the two CNAs should have stopped the resident from leaving the unit. The surveyor reviewed the video with the DON. The DON acknowledged CNA #1 was standing in front of the exit door blocking Resident [REDACTED] from exiting the unit, which was an issue because this was considered a restraint. The DON stated that even if the resident was confused, which Resident [REDACTED] was not, staff could not stop the resident from leaving. The DON stated staff had to ensure the resident's safety and could follow the resident from a distance, but staff could not prevent the resident from leaving the unit. The DON stated the ADON was currently on vacation but confirmed the investigation was not complete, and she had to re-open the investigation to clarify the statements and determine why CNA #1 stood in front of the	F 600

F 600	<p>Continued From page 20</p> <p>observations and [resident's] allegations; Agency Nurse was removed from the nursing unit and asked to provide a statement. She was subsequently dismissed from the remainder of her shift; [Agency] was notified of incident and request was made for the staff member not to return to facility; MD (Physician) was notified with order for body check every shift for five days and vital signs every shift for five days; [resident] reported that the nurse did not make physical contact with [his/her] person, only restricted [him/her] by holding [his/her] wheelchair; Social Worker will continue to provide emotional support. The summary included: the ADON reviewed the footage, which showed [Resident ██████] was near the end of the door of the unit, the Agency staff was holding [their] wheelchair handle preventing [them] from leaving the unit. It was apparent on the video that staff members intervened and came to diffuse the situation. Hand gestures were made by Charge Nurse noted to put her hand up in a stop motion to Agency Nurse (LPN #1) as she appeared to follow [Resident ██████] up the hall making verbalizations. Conclusion: evidence of verbal abuse and intent to involuntarily seclude a resident was consistent in staff members' statements and observations made by the ADON on the video footage. Verbal abuse and attempt to involuntarily seclude were substantiated. The "Final Investigation" summary did not include that CNA #1 involuntarily secluded the resident or that any action was taken towards CNA #1.</p> <p>On 08/24/22 at 12:33 PM, the DON informed the survey team that in light of CNA #1 blocking door, she was reporting it to the NJDOH.</p>	F 600

F 600	<p>Continued From page 24</p> <p>stepped out of Resident Room [redacted] before LPN #1 and Resident [redacted] reached the closed exit doors, and CNA #1 stood in front of the exit doors. The video then revealed after CNA #1 was in front of the doors, LPN #1 grabbed the back of Resident [redacted] wheelchair in the presence of CNA #1. This contradicted CNA #1's revised statement that she walked out of Resident Room [redacted] and observed LPN #1 was holding the back of Resident [redacted]'s wheelchair at that time.</p> <p>On 09/06/22 at 03:15 PM, the DON followed-up with the surveyor via telephone and confirmed that she watched the video footage again. The DON confirmed that the video footage showed that LPN #1 did not grab the back of Resident [redacted] wheelchair until after CNA #1 was outside of Resident Room [redacted] in front of the door which contradicted the CNA's statement. The DON continued the statement taken was what CNA #1 informed her of what had happened.</p> <p>A review of the facility's "Resident Safety Policy and Procedure Resident Abuse Certification" dated 06/08/22, included it is policy to promote and maintain a work and living environment that is professional and free from threat, and/or occurrences of harassment, mistreatment, abuse (verbal, physical, mental or sexual), neglect, corporal punishment, involuntary seclusion and misappropriation of property...Residents must not be subjected to abuse by anyone including, but not limited to, facility staff, other residents, consultants, volunteers, staff of other agencies serving the resident, family members, legal guardians, friends, or other individuals... Procedure... identify, correct and intervene in situations in which mistreatment, abuse, neglect</p>	F 600

This was identified for 1 of 3 staff members (LPN #1) reviewed for an abuse investigation of █ of █ residents (Resident █) and was evidenced by the following:</p> <p>On 08/18/22 at 10:38 AM, the surveyor interviewed Resident █ who stated on 07/30/22, he/she receive █ Executive Order 26, 4.b. █ and asked an aide to find the nurse to administer the medications. An Agency Nurse (Licensed Practical Nurse (LPN #1)) entered my room and informed me that they would administer my medications and take my vital signs and proceeded to leave the room and closed the door. The resident stated that he/she proceeded to use the callbell and LPN #1 came back into the room, to tell me to stop pushing the callbell; pulled down her mask and attempted to bite my finger as I pointed at her.</p> <p>The resident continued that they got out of bed to get away from her and LPN #1 lunged her nurse's cart at me three times and hit my left foot that reopened a wound. The resident stated that he/she was trying to get away from LPN #1 and get to the Registered Nurse Supervisor (RN Supervisor). The resident stated as he/she was attempting to leave the unit in the hallway, the nurse "assaulted" me by pulling my wheelchair 2-3 times which caused my wheelchair's (w/c) two front wheels to be in the air which positioned me only on the two back wheels.</p> <p>The resident stated that there was a Certified Nursing Aide (CNA #1) there but he/she cannot recall their name who tried to calm the "crazy nurse" down. The resident stated that the RN</p>	F 600

F 600	<p>Continued From page 29</p> <p>pressed the callbell and LPN #1 came into the room and asked why he/she was calling her. LPN #1 then proceeded to close the door which the resident did not like and he/she went to call the Supervisor, but LPN #1 took the phone so the resident could not call. LPN #1 then blocked the resident's room with her medication cart so he/she could not leave and then was pulling the resident's wheelchair so the resident could not leave the unit. The RN Supervisor stated the aides told LPN #1 to stop and RN #1 who was on the other side of the unit called the RN Supervisor who had LPN #1 leave the facility and an investigation was initiated. The RN Supervisor stated the resident reported LPN #1 attempted to bite his/her finger but no injury was observed. There was a surveillance video footage reviewed and statements were taken. The RN Supervisor stated Resident [REDACTED] gets really upset sometimes due to pain so the nurses usually responded to him/her right away.</p> <p>On 08/18/22 at 01:06 PM, the surveyor requested the Licensed Nursing Home Administrator (LNHA) to provide all investigations for Resident Executive Order 26, 4.b.</p> <p>On 08/18/22 at 01:14 PM, the surveyor asked the LNHA how the facility ensured Agency staff were vetted and received abuse training prior to working at the facility? The LNHA responded that she would need to confer and get back to the surveyor.</p> <p>On 08/19/22 at 08:34 AM, the Director of Nursing (DON) provided the surveyor a copy of the "Agency Staff Handbook" dated 2018, which included Resident Rights and Abuse. This deficient practice was identified for 1 of 1 residents sampled for comprehensive care plans (Resident [redacted]). This deficient practice was based on the following:</p> <p>Refer to F600 J</p> <p>On 08/18/22 at 10:28 AM, the surveyor observed Resident [redacted] seated in a wheelchair at the bedside. When interviewed, the resident informed the surveyor that on [redacted] he/she pressed the call light to request scheduled pain and anxiety medications and the call light was answered by the Certified Nursing Assistant (CNA) who reportedly informed the resident's assigned nurse. The resident stated the nurse walked in the room and stated that she would obtain the resident's vital signs and medications simultaneously and then proceeded to walk out of the resident's room and closed the door behind her. The resident reportedly pressed the call light in an effort to call the nurse back to the room. The resident stated that the nurse walked back into the room and yelled at the resident to, "Stop buzzing." The resident stated that a verbal exchange ensued between the two and when the resident pointed his/her finger into the nurse's face, she pulled down her mask and attempted to bite the resident's finger. The resident stated the nurse continued to scream and the resident got out of bed at that point and attempted to get away from her. The resident alleged that the nurse lunged the medication cart towards him/her three times and hit the resident's left foot. The resident reportedly tried to call for a nursing supervisor and the nurse pulled the wheelchair two or three times and caused the resident to do</p>	F 656

The surveyor requested in-service education training provided after the incident, but none had been provided.</p> <p>When asked how nursing staff competency education was being tracked, the NE added the DON would inform him of any needed in-service education training. The Orientation package provided by the facility was reviewed with the NE on 08/19/22 and did not include Executive Order 26, 4.b. Removal. The current policy revealed how to insert an Executive Order 26, 4.b. only. The facility was unable to provide the rationale for nursing staff not being trained or assessed for competency on how to remove an Executive Order 26, 4.b. Executive Order 26, 4.b..</p> <p>On 08/23/22 at 4:40 PM, the surveyor conducted a second interview with RN #1. She stated that she had performed the skill to remove an indwelling urinary catheter before deflating the balloon. She stated that cutting the indwelling urinary catheter was a simple procedure that she had not used prior. She stated that she overheard nurses saying that you could cut the indwelling urinary catheter to remove it, and that was why she cut the indwelling urinary catheter. She stated that after the incident, she went to the internet, watched a video, and realized that she did not follow the proper technique. RN #1 stated that she cut the catheter 4 to 5 inches below the insertion site, not by the port, to evacuate the water. The surveyor then asked RN #1 to elaborate on the procedure for indwelling urinary catheter removal. She stated:</p> <ol style="list-style-type: none"> 1. Verify the order, identify the patient, explain the procedure, provide privacy, use a syringe to deflate the balloon by aspirating the water, and 	F 658

F 684	<p>Continued From page 86</p> <p>On 08/23/22 at 9:22 AM, the surveyor interviewed the Certified Nursing Assistant (CNA) who cared for Resident [REDACTED]. The CNA stated that Resident [REDACTED] was totally dependent upon staff for care but was able to feed themselves after set-up. The CNA stated that Resident [REDACTED] could be [REDACTED] Executive Order 26, 4.b. However, she had developed a trusting relationship with the resident, and the resident was not very [REDACTED] Executive Order 26, 4.b. with her during care. The CNA also stated that the family was very involved.</p> <p>The surveyor reviewed Resident [REDACTED] Executive Order 26, 4.b. medical record on [REDACTED] Executive Order 26, 4.b. According to the Admission Face Sheet, Resident [REDACTED] was admitted to the facility with diagnoses which included, but were not limited to: Executive Order 26, 4.b. Executive Order 26, 4.b. Executive Order 26, 4.b. Executive Order 26, 4.b. Executive Order 26, 4.b.</p> <p>The quarterly Minimum Data Set Assessment (MDS), an assessment tool used by the facility to prioritize care, dated Executive Order 26, 4.b., revealed that Resident [REDACTED] was severely cognitively impaired. Resident [REDACTED] scored [REDACTED] on the Brief Interview for mental status (Normal Executive Order 26, 4.b.). Further review of the MDS revealed that Resident [REDACTED] was unable to make their needs known.</p> <p>A Care Plan (CP) dated 10/29/20 revealed the following problems: Executive Order 26, 4.b. Resident [REDACTED] was Executive Order 26, 4.b. related to</p>	F 684	<p>medical records of all Residents who experience falls weekly for four weeks then monthly for two months to assure post fall care and assessments, therapy referrals, and X-Ray results when required are completed and the physician and family notified per policy. Results of these audits will be discussed with the DON and actions implemented as appropriate. The DON will share results in aggregate at the quarterly QA committee meeting.</p> <p>> The ADON/designee will complete random audits of 5 Resident charts who experience falls weekly for four weeks, then monthly for two months to assure proper interventions are implemented on the care plans and staff providing care are aware of all revised care plan interventions. Results of these audits will be presented to the DON who will present results in aggregate quarterly to the QA committee for further action as appropriate.</p>

F 692	<p>Continued From page 110</p> <p>(RN/S) for Independence Unit who stated that the weight process was to weigh the resident upon admission, weekly for four weeks and then monthly. RN/S stated that if a weight discrepancy was identified, then the resident was reweighed the next day. RN/S stated that the Certified Nursing Assistants (CNA) obtained the weights in the presence of the nurse and documented it on the weight sheet in the presence of the nurse to confirm completion. RN/S stated that if staff identified a weight discrepancy greater or less than three pounds, then a reweight was done and the scale should be questioned for accuracy. RN/S stated that the facility had problems with every scale in the building which required service at one point. RN/S was unable to specify when the scales were last serviced. She further stated that the RD assessed resident weights weekly and would intervene to assess the feeding for a resident with TF who lost weight.</p> <p>On 08/25/22 at 12:40 PM, Surveyor #3 interviewed RD #2 who stated that the facility policy was that if a resident's weight was obtained and was greater or less than three pounds then a reweight was required. Surveyor #3 reviewed Resident [redacted] Record of Monthly Executive Order 26, 4.b. and [redacted] with RD #2 who stated that when Resident [redacted] weight dropped from Executive Order 26, 4.b. on Executive Order 26, 4.b. there should have been a reweight documented on the weight book on the unit and on the monthly vitals. RD #2 stated that the RD kept their own records. RD #2 stated that on Executive Order 26, 4.b., when the resident's weight was Executive Order 26, 4.b., she did not know if there was a medical reason for that. RD #2 further stated that she did not think that the weight was accurate, but the</p>	F 692

F 712	<p>Continued From page 120</p> <p>licensed by the State and performing within the state's scope-of-practice laws.</p> <p>This deficient practice was evidenced by the following:</p> <p>1. On 08/23/22 at 9:39 AM, a review of Resident [redacted] s chart by Surveyor # 1 revealed the "Primary Physician 30 Day Assessment and Medical Plan of Care" forms were signed by Nurse Practitioner (NP) #1 for [redacted] Executive Order 26, 4.b. Surveyor #1 was unable to locate a June visit by the PCP or NP at that time.</p> <p>On 08/25/22 9:38 AM, Registered Nurse/Unit Manager (RN/UM #1) reviewed Resident [redacted] chart with the surveyor. He was unable to show documentation for when the resident was last seen by the Primary Care Physician (PCP). He asked the unit clerk to review Resident [redacted] thinned chart records for PCP documentation. At 09:42 AM, the RN/UM #1 stated that they were unable to find documentation that Resident [redacted] PCP #2 had conducted a face-to-face visit. He stated that PCP #1, PCP #2 and NP#1 were from the same medical practice. He then stated that the PCP would do the assessments after an admission for 3 months and then the NPs would take over the resident's care.</p> <p>On 08/25/22 at 10:08 AM, a review of Resident [redacted] s chart by Surveyor #1 revealed the "Primary Physician 30 Day Assessment and Medical Plan of Care" forms were signed by NP #1 for [redacted] Executive Order 26, 4.b. The Annual/Readmit Examination & Plan of Care form dated [redacted] Executive Order 26, 4.b. was signed by NP #1. Further</p>	F 712	<p>alternate practitioner monthly Resident visits as required by regulations. A schedule of visits will be established by unit and an initial visit conducted by a physician for existing Residents followed by alternating visits per policy and regulation.</p> <p>Element Four - Quality Assurance > The Medical Director will conduct random chart audits of 10% of Resident medical records weekly for the next four weeks, then monthly for two months to assure physician visits are properly completed in compliance with facility policy and regulations. The Medical Director will contact any physician who needs to complete a monthly visit to assure compliance. The Medical Director will discuss compliance with the Administrator monthly and present finding in aggregate at the quarterly QA committee meeting for further direction and action as appropriate.</p>

Pull/Thaw/Use By labels are for pulling food from the freezer. Each item pulled from the freezer must be labeled, along with the received date. 4. Prep Date/Use By labels are for food that has been prepped for use. 5. White labels, dry good storage (which includes, but is not limited to such items as potato flakes, spice type products, canned items).</p> <p>The surveyor reviewed the facility's policy, "Storage of Prepared Food Items," undated, which revealed Procedure: 1. Foods prepared and held for over 24 hours under refrigeration need to be labeled with a preparation date. 2. Once prepared, food, including sliced deli meats, is not to be held for longer than five days. 3. Any food more than five days old is to be discarded.</p> <p>The surveyor reviewed the facility's policy, "Cleaning/Preventive Maintenance of Alto Sham Ovens," Date of Issue 12 Feb 07, which revealed Purpose: To maintain ovens properly. Procedure: 3. Wash interior sides, bottom and top with mild detergent and water. A stainless steel cleaner should be used for the interior. Rinse and dry. 4. Wash doors using a stainless steel cleaner.</p>	F 812

F 835	<p>Continued From page 157</p> <p>On 08/22/22 at 10:31 AM, the surveyor reviewed the surveillance video with the Assistant Licensed Nursing Home Administrator (ALNHA) #1, Employee Relations/Legal Specialist, another surveyor, and the Employee Relations/Legal Specialist confirmed CNA #1 was the aide who was blocking the door. CNA #2 was the aide observed later walking up the hallway towards LPN #1, CNA #1, and the resident during the altercation. At this time, the surveyor reviewed the investigation packet with ALNHA #1, who confirmed there should have been a statement from CNA #1 included in the investigation report.</p> <p>On 08/23/22 at 10:59 AM, the DON provided the surveyor with CNA #1's statement dated [REDACTED], which was the exact same statement provided by CNA #2. At this time, the surveyor asked the DON to read both CNA #1 and CNA #2's statements, and she confirmed that both statements were the same but was signed by the corresponding CNA. At this time, the surveyor requested to watch the video footage again with the DON.</p> <p>On 08/23/22 at 11:10 AM, the surveyor with the DON, Employee Relations/Legal Specialist, and another surveyor viewed the video footage. When comparing the surveillance footage with the statements, the surveyor asked the DON if the statements clearly reflected what had happened. The DON reported that she completed a three-page reportable to the New Jersey Department of Health (NJDOH) and told RN #1 to watch the video to see if anything should be added to her statement. Then the DON reported she had left for vacation. The DON stated that the ADON had watched the video with</p>	F 835

F 835	<p>Continued From page 158</p> <p>RN #1, who did not want to change her statement. The DON stated the purpose of an investigation was to determine a root cause analysis and confirmed these statements were not clear. The DON stated when she returned from vacation, the investigation was completed by the ADON, and she did not review it even though she was responsible for oversight of all aspects of nursing. The DON confirmed the resident had the right to leave the unit, and no staff, including the two CNAs, should have stopped the resident from leaving the unit. The surveyor reviewed the video with the DON. The DON acknowledged CNA #1 was standing in front of the exit door blocking Resident [REDACTED] from exiting the unit, which was an issue because this was considered a restraint. The DON stated that even if the resident was confused, which Resident [REDACTED] was not, staff could not stop the resident from leaving. The DON stated staff had to ensure the resident's safety and could follow the resident from a distance, but staff could not prevent the resident from leaving the unit. The DON stated the ADON was on vacation but confirmed the investigation was incomplete. She had to re-open the investigation to clarify the statements and determine why CNA #1 stood in front of the door.</p> <p>On 08/23/22 at 01:14 PM, the surveyor re-interviewed Resident [REDACTED] who stated CNA #1 was stopping LPN #1 from verbally abusing them, but confirmed CNA #1 was preventing them from leaving the unit and told them they were not allowed to leave the unit. The resident stated CNA #1 could have done more since she was not letting them leave, and they did not know why.</p>	F 835

F 835	<p>Continued From page 165</p> <p>07/26/22. The RN/UM stated that the Registered Nurse (RN #1), who oversaw the unit on 07/26/22, cut the Executive Order 26, 4.b. in the process of removing the Executive Order 26, 4.b. She stated that there was an order to remove the Executive Order 26, 4.b. on 07/26/22. RN #1 proceeded to execute the order to remove the Executive Order 26, 4.b. The RN/UM stated that RN #1 reportedly had never removed a Executive Order 26, 4.b. before. She cut the Executive Order 26, 4.b. with a pair of scissors instead of using a syringe to remove the water to deflate the balloon. The remaining Executive Order 26, 4.b. then Executive Order 26, 4.b. Resident # Executive Order 26, 4.b. was transferred to the ED for evaluation and treatment on the same day.</p> <p>The hospital discharge summary was requested and was not available for review by the surveyor. The RN/UM stated she would inform the DON of the request for the hospital discharge summary.</p> <p>On 08/19/22 at 12:30 PM, the surveyor interviewed the Director of Nursing (DON). The DON confirmed that she was aware of the above incident and informed the surveyor that RN #1 was suspended pending disciplinary action. The surveyor requested the investigation and the employee file for review. The surveyor also requested RN #1's telephone contact to conduct an interview.</p> <p>On 08/23/22 at 9:23 AM, the surveyor interviewed a random Registered Nurse (RN) assigned to the 200 unit regarding nursing resource materials available to the staff. The RN directed the surveyor to the binder outside the nursing station that contained all the policies and</p>	F 835

She stated that the DON informed her to leave the floor once she completed her statement. RN #1 stated that she had not received any in-service education on how to remove an indwelling urinary catheter at the facility. She stated she was aware that besides deflating the balloon, another simple way was to cut the indwelling urinary catheter. She stated, "I made a mistake." RN #1 stated that she met with the DON in the office and explained what had happened. The DON informed her that she was suspended.</p> <p>The surveyor then asked RN #1 to elaborate on her work history before being employed by the facility. RN #1 stated that she worked as a floor nurse for a long-term care facility and a psychiatric hospital before working at the current facility. She stated she had been a Registered Nurse for ^{Executive Order 26, 4.b.}. RN #1 stated after being hired by the facility, during orientation, she was able to demonstrate and was evaluated on the skill sets of inserting an indwelling urinary catheter. However, she was not evaluated for indwelling urinary catheter removal.</p> <p>A review of RN #1's orientation file provided by the Nurse Educator (NE) confirmed that she received in-service education on inserting a urinary drainage catheter on 09/24/19 during orientation. The surveyor requested RN #1's employee file from the DON. RN #1's employee file contained three written warnings, one for a medication error, the second for not donning the proper PPE during an outbreak, and the most</p>	F 835

The NP stated that she wrote an order to remove the Executive Order 26, 4.b. and initiate a voiding trial. She received a call from the nurse, who stated that something had happened. The nurse stated she cut the Executive Order 26, 4.b. to remove it, and the Executive Order 26, 4.b.. The NP stated, "I came on the unit, examined the resident, and the resident was not in pain. I gave an order to transfer Resident # Executive to the Executive Order 26, 4.b.." The NP stated, "I had never heard of such a procedure." The NP further stated that she was not informed of any follow-up or recommendations from the ED. The NP stated that she reviewed the "After Visit Summary" the next day and could not identify what treatment was provided. She said she called the hospital and spoke to the staff, but the hospital staff could not comment on what treatment was provided. The NP stated she asked for the Executive Order 26 report and was informed that the Executive Order 26, 4.b. was not called in to see Resident # Executive. The NP then explained to the ED, what had happened, and that the issue needed to be addressed immediately. The NP stated the Executive Order 26 it was then made aware that Resident Executive O had the Executive Order 26, 4.b.</p> <p>On 08/23/22 at 12:03 PM, the surveyor interviewed the NE in charge of orientation and staff competencies. The surveyor inquired about specific competencies and skill sets necessary to care for resident needs. The NE provided the surveyor with the orientation package. A review of the orientation package confirmed that indwelling urinary catheter removal was not included in the competencies. RN #1 did not</p>	F 835

She stated that cutting the indwelling urinary catheter was a simple procedure that she had not used prior. She stated that she overheard nurses saying that you could cut the indwelling urinary catheter to remove it, and that was why she cut the indwelling urinary catheter. She stated that after the incident, she went to the internet, watched a video, and realized that she did not follow the proper technique. RN #1 stated that she cut the catheter 4 to 5 inches below the insertion site, not by the port, to evacuate the water. The surveyor then asked RN #1 to elaborate on the indwelling urinary catheter removal procedure. She stated:</p> <p>1. Verify the order, identify the patient, explain the procedure, provide privacy, use a syringe to deflate the balloon by aspirating the water, and gently pull the indwelling urinary catheter. She stated she "was very concerned" regarding the resident's well-being. She kept calling every day to inquire regarding Resident [redacted] status. RN #1 elaborated on the process of properly removing an indwelling urinary catheter. She could not provide the rationale for cutting the Executive Order 26, 4.b., which caused Resident [redacted] to be Executive Order 26, 4.b.</p> <p>On 08/24/22 at 09:30 AM, The DON provided the Investigation Report for review. The surveyor reviewed the final report, which revealed the following:</p> <p>Physical Evidence</p> <p>On 07/26/22, the charge nurse reported that in the process of removing Resident # [redacted]</p>	F 835

She stated, "the nurses on the weekend would verbally" tell her, but there was no documentation regarding the conversation. The IP/ RN acknowledged that close contacts should have included visitors, and physicians, therapy staff but that she did not have documentation that they were ever included on the contact tracing forms.</p> <p>On 09/02/22 at 11:34 AM, during a telephone interview with the survey team, the Medical Director (MD) stated he started at the facility in July 2022. He stated that he had not had any discussions about contact tracing yet, but he was aware of the facility statistics. The MD further stated that he had finished reviewing the Infection Control manual, which was not complete regarding close contacts, and that it would be on the agenda to discuss with the IP RN during their next meeting.</p> <p>On 09/02/22 at 12:04 PM, during an interview with two surveyors, the Assistant Nursing Home Administrator (ANHA) stated she was responsible for the oversight of the IP/RN. She stated her responsibilities were to ensure that the IP/RN completed her job functions and was supported. The ANHA stated a form should be used regarding contact tracing and that the IP/RN had no choice but to follow the facility directives and complete the form. The ANHA stated that the contact tracing form should be done "that day" (the day of the exposure). The ANHA further stated that if it was not documented, "how do we know." She stated that</p>	F 835

F 835	<p>Continued From page 190</p> <p>the contact tracing forms were completed to prevent the spread of infection and that exposed close contact should not have been working until they have been tested for COVID-19.</p> <p>On 09/06/22 at 11:31 AM, the surveyor attempted to reach either of the two representatives from the LHD that the IP/RN stated she was in contact with. Two phone messages and email communication was sent. There was no response from either LHD Representative assigned to the facility.</p> <p>On 09/06/22 at 12:03 PM, during a follow-up interview with the survey team, the IP/ RN was asked again if she had received any guidance from the LHD, given the facility had been active COVID-19 outbreak since 11/23/21. The IP/RN stated that she would have to check her emails but believed the LHD may have sent her links to reference. At 12:13 PM, the IP/RN presented the surveyor with additional guidance from the LHD dated 01/19/22, which had not been provided previously. The IP/RN and the surveyor reviewed a guidance in part which included but was not limited to: if the facility can perform contact tracing and can identify close contacts, testing should be done as follows: staff ...with exposure with COVID-19 positive individual, residents ...who had close contact with a COVID-19 positive individual. If the facility is unable to perform contact tracing and is unable to identify close contacts, testing should be done as follows: staff ...test all staff facility wide or at a group level if staff are assigned to a specific location where the new case occurred. Residents ...test all residents facility wide or at a group level if staff are assigned to a specific location where the new</p>	F 835

F 835	<p>Continued From page 204</p> <p>residents long enough to be considered a close contact. The IP/RN stated that an exposure would be traced 48 hours prior for someone within six feet for 15 minutes or more. She further stated, "I know from memory that none of the nurses were" (with the residents for 15 minutes or more consecutively in a 24 hour period). The IP/RN stated that the facility implemented routine broad based COVID-19 testing back in December 2021 where the staff were tested three times a week and the residents were tested once or twice a week. The IP/ RN stated that close contacts were not all tested when identified as exposed. The IP/ RN further stated that testing of close contacts would depend on what time a person tested positive. She stated sometimes staff would have gone home and so testing would be, "as soon as possible". The IP/RN acknowledged that the forms should have been complete.</p> <p>On 08/31/22 at 1:12 PM during an interview with the surveyor, the Licensed Nursing Home Administrator (LNHA) stated they were familiar with the process of contact tracing. At 1:14 PM, the IP/RN joined the interview and stated that it was facility process for her to keep her own notes and that the facility would test everyone weekly. The IP/RN further stated that she remembers from December 2021 on that none of the nurses who cared for the COVID-19 positive residents spent over 15 minutes with the residents and that there were no treatments done either. The LNHA stated that was incorrect and the facility did require formal tracking (contact tracing). The LNHA further stated that the IP/RN should have conducted the contact tracing at the time of the exposure and not from "memory". The LNHA</p>	F 835

F 835	<p>Continued From page 205</p> <p>stated that the IP RN's statement that the nurses did not spend more than 15 minutes with the residents was "not fully accurate".</p> <p>Refer to F 886L</p> <p>Based on interviews and a review of pertinent documents, it was determined that the facility failed to ensure: a.) a process was followed to initiate immediate action and conduct COVID-19 testing upon the identification of a single COVID-19 positive result, b.) that staff who were exposed were COVID-19 tested prior to working at the facility, c.) Federal, State and infection control guidelines were followed, and d.) the facility Infectious Disease Outbreak Response Plan was followed to prevent exposure and mitigate the spread of COVID-19, a deadly, highly transmissible infectious disease.</p> <p>The facility's system wide failure to immediately conduct COVID-19 testing upon the identification of a single new case of COVID-19, posed a serious and immediate risk to the health and well-being of all staff and residents who resided at the facility and who were placed at risk for contracting a contagious infectious and potentially deadly virus. A serious adverse outcome was likely to occur as the identified non-compliance resulted in an Immediate Jeopardy (IJ) situation that was identified on 09/01/22 at 2:37 PM. The survey team verified the removal plan during an on-site visit conducted on 09/06/22 at 4:31 PM.</p> <p>The evidence was as follows:</p> <p>Refer to 880L</p>	F 835

F 835	<p>Continued From page 208</p> <p>LPN #1 presented symptomatic with a runny nose and tested positive on 08/7/22. The contact tracing section failed to list any staff or residents who may have been a close contact.</p> <p>On 08/29/22 at 8:39 AM, during an interview with the surveyor, the facility IP/RN was asked to provide contact tracing for eight residents reviewed between 12/28/21 through 08/16/22 and for six staff members reviewed from 08/01/22 through 08/16/22, all were noted on the facility line-list as have been tested COVID-19 positive. The IP/RN stated that when someone was exposed, she would do the contact tracing but would not list the staff or residents. She stated she could not provide any documentation of staff or residents who may have been exposed because she kept that information in a personal notebook. She further stated that she was "alone, no secretary, no help" and that she did not document the exposed people. The IP/RN stated that she also followed the facility's Outbreak Response Plan.</p> <p>On 08/29/22 at 9:32 AM, during an interview with the surveyor, a Licensed Practical Nurse Unit Manager (LPN/UM) in Liberty Unit stated that if a resident tested COVID-19 positive, the IP/RN would isolate the resident and do the investigation. She further stated that if a staff member tested COVID-19 positive, they would be sent home, and the IP/RN would do all the paperwork. The LPN/UM further stated that she was unsure if testing was done when someone was exposed, but she knew the facility had a team to do routine testing of the residents and staff.</p>	F 835

F 835	<p>Continued From page 209</p> <p>On 08/29/22 at 9:40 AM, during an interview with the surveyor, the RN Employee Health Nurse stated that she was only responsible for routinely testing the staff and residents and, upon return to the facility, if the resident had gone out. The RN Employee Health Nurse further stated that contact tracing was important to warn others who were exposed so they may be tested as there was a 2 to 14 day incubation period for COVID-19.</p> <p>On 08/29/22 at 11:27 AM, the IP/RN provided the incomplete facility, "Contact Tracing Forms," for the six requested COVID-19 positive staff. The IP/RN stated there was no policy for contact tracing so she would use the Center for Disease Control and Prevention (CDC) guidance and stated she would provide that information.</p> <p>On 08/30/22 at 10:58 AM, during an interview with the surveyor, the IP/RN stated that the facility had enough testing supplies to perform facility wide COVID-19 testing. The IP/RN had provided the CDC guidance, "Interim Infection Prevention and Control Recommendations to Prevent SARS-CoV-2 Spread in Nursing Homes, dated 02/02/22. The surveyor reviewed the guidance with the IP/RN and asked about the directive that "asymptomatic residents with close contact to someone COVID + (positive), regardless of vaccination status, should have two viral tests. Testing is recommended immediately and if negative, in 5-7 days after the exposure". The surveyor asked the IP/RN to provide documentation of the tests and follow up tests.</p> <p>The IP/RN stated she would talk to the staff but did not write things down. She again stated that</p>	F 835

F 835	<p>Continued From page 214 been complete.</p> <p>On 08/31/22 at 1:12 PM, during an interview with the surveyor, the Licensed Nursing Home Administrator (LNHA) stated they were familiar with the process of contact tracing. At 1:14 PM, the IP/RN joined the interview and stated that it was a facility process for her to keep her own notes and that the facility would test everyone weekly. The IP/RN further stated that she remembers from December 2021 that none of the nurses who cared for the COVID-19 positive residents spent over 15 minutes with the residents and that no treatments were done either. The LNHA stated that was incorrect, and the facility did require formal tracking (contact tracing). The LNHA further stated that the IP/RN should have conducted the contact tracing at the time of the exposure and not from "memory". The LNHA stated that the IP RN's statement that the nurses did not spend more than 15 minutes with the residents was "not fully accurate".</p> <p>On 09/01/22 at 9:22 AM, during an interview with surveyors in the conference room, the IP/RN stated that she consulted with the local health department (LHD) but did not get any guidance on testing close contacts versus broad-based testing. The IP/RN stated, "the nurses (facility) I spoke to were in and out" (of resident rooms); "I should have kept my contact tracing" personal notes; "I cannot say 100% if the nurses did not stay 15 minutes or more". The surveyor requested communication information from the LHD.</p> <p>A review of the communication with the LHD provided by the IP/RN on 09/02/22 at 9:30 AM,</p>	F 835

F 835	<p>Continued From page 215</p> <p>revealed emails sent to the LHD as follows: 01/04/22, the IP/RN asked for a meeting, and the LHD asked for her concerns; 01/25/22 the IP/RN asking for clarification if she needed to test the roommate of a COVID-19 positive resident and would she be required to retest in 48 hours and the IP/RN added according to an attached policy (not provided), she would say no; 04/22/22 the IP RN asking about quarantining residents not up to date with COVID-19 vaccinations in response to COVID-19 positive residents on the same unit, and 07/18/22 regarding staff going on vacation and coming back COVID-19 positive if they would need to be reported.</p> <p>On 09/01/22 at 9:34 AM, during an interview with the surveyors, the IP/RN stated that not all the staff were tested at the facility. She stated some would go elsewhere to get tested, but they would have to let her know. The IP/RN again stated she did not keep the contact tracing or testing documentation. She stated that the documents should have been kept, but most of the contact tracing was done by her, and in December, she was "getting like 10 positives (COVID-19) a day". The IP/RN could not provide any documented evidence of COVID-19 testing performed outside of the facility.</p> <p>On 09/02/22 at 9:47 AM, the IP/RN stated that if someone tested COVID-19 positive on a "Saturday," she would "wait until Monday." She stated, "the nurses on the weekend would verbally" tell her (who was exposed), but there was no documentation regarding the conversation. The IP/RN acknowledged that close contacts should have included visitors, physicians, and therapy staff but that she did not</p>	F 835

He stated close contacts should be tested within 48 hours, but if symptomatic, test immediately "per my thought process."</p> <p>On 09/02/22 at 12:04 PM, during an interview with two surveyors, an Assistant Nursing Home Administrator (ANHA) stated she oversaw the IP/RN. She stated her responsibilities were to ensure that the IP/RN did her job and was supported. The ANHA stated there was a form regarding contact tracing and that the IP/RN had no choice but to follow the facility's directives. The ANHA stated that the contact tracing form should be done "that day" (the day of exposure). The ANHA stated that the form should have included more than Certified Nursing Assistants (CNAs). She further stated that if they (the close contact staff) were not documented, "how do we know" (testing was done). The ANHA stated that if someone tested positive on a Saturday, the close contacts should be tested immediately and not wait until Monday. She stated that the contact tracing forms were done to prevent the spread of infection and that an exposed close contact should not have worked until they were tested. The ANHA also stated that staff should not be going outside the facility for testing and not showing proof because they could have exposed others.</p> <p>On 09/06/22 at 11:31 AM, the surveyor attempted</p>	F 835

F 835	Continued From page 222 A review of the Centers for Medicare and Medicaid Services (CMS) directive QSO-20-38-NH, dated revised 03/10/22, included but was not limited to the definition of "Close contact," which refers to someone who has been within 6 feet of a COVID-19 positive person for a cumulative total of 15 minutes or more over a 24-hour period. Guidance - To enhance efforts to keep COVID-19 from entering and spreading through nursing homes, facilities are required to test residents and staff based on parameters and a frequency set forth by the HHS Secretary. The testing summary included that for newly identified COVID-19 positive staff or residents in a facility that can identify close contacts, the facility should, regardless of vaccination status, test all staff that had a higher-risk exposure with a COVID-19 positive individual and test all residents who had a close contact with a COVID-19 positive individual. Testing during an outbreak revealed that upon identification of a single new case of COVID-19 infection in any staff or residents, testing should begin immediately. Facilities have the option to perform outbreak testing through two approaches, contact tracing or broad-based (e.g., facility-wide) testing. Documentation of testing that upon identification of a new COVID-19 case in the facility, document the date the case was identified, the date that other residents and staff are tested, the dates that staff and residents who tested negative are retested, and the results of all tests. The facility failed to follow this CMS directive by not recognizing all who may have been a close contact, not testing all close contacts within the time frame provided, not retaining original records, and not providing follow up tests to all close contacts who had an initial negative	F 835

F 865	<p>Continued From page 225 incidents), Nutrition (related to resident weight loss), Food Service (related to the food, including temperature and taste), Housekeeping (related to the cleanliness of resident rooms and cleaning of wheelchairs), Infection Control (related to increasing the COVID-19 boosters and vaccination status percentage for employees), Maintenance (related to perimeter door identification), Medical Records (related to closed and discontinued charts, medical errors, medication pass compliance, restorative program audit, as needed psychotropic medication, pain with wound treatments, and reportable event monitoring. The ANHA then reviewed the July 2022 QAPI report and report and stated additional QAPI plans included from Rehabilitation (related to wound modalities), Nursing (related to medical storage), Social Services (related to ombudsman release of papers, funeral homes and grievances, Staff Development (related to mandatory educational topics).</p> <p>The surveyor inquired to the ANHA regarding how new topics for QAPI plans were developed and initiated. The ANHA stated when we conduct the QAPI meeting the departments would "usually" come up with new topics, and if the department needed to form a QAPI team then we would determine who would be on the team. The ANHA stated that the QAP process would include identifying root causes analysis regarding the problem. The ANHA stated once a root cause analysis was completed for a QAPI, it would be reviewed to identify if a system issue or a staff issue was the problem and then addressed by the group that was assigned the problem. The QAP would also review the policies, develop new</p>	F 865	<p>weekly QAPI compliance meeting until substantial compliance is achieved. Direction for action corresponding to the plan of correction will be provided to team members as appropriate. The findings serve as the basis for system changes, policy changes and staff education. Findings and recommendations are discussed with the DMAVA Central office.</p> <p>> The required quarterly QAPI committee meetings will integrate information and audit findings from all other QAPI meetings, and a decision made regarding which items become standing agenda items. Findings and recommendations are discussed with the Department of Military And Veterans Affairs (DMAVA) Central office.</p>

F 865	Continued From page 226 policies as needed, and finalize the new policies. The ANHA stated that the LNHA has joined us in the policy revision meetings and the surveyor inquired as what role that the facility Medical Director (MD) had with the QAPI. The ANHA stated that he would be updated on the QAPI's, and "right now it is on a limited basis". The surveyor asked the ANHA what the purpose of the QAP was. The ANHA stated "to ensure that we have effective and efficient quality care for the residents" and "we want to make sure we are giving the proper care to the residents." The surveyor inquired to the ANHA regarding how the QAP would determine what QAPI plans were initiated regarding infection control. The ANHA stated that based on the past meetings that the facility Infection Preventionist RN (IP/RN) was monitoring COVID-19 boosters, and stated the IP/RN "just" brought up the COVID-19 boosters for a QAPI. The ANHA stated that any issues from previous surveys would be enacted into a QAPI plan also. The surveyor inquired to the ANHA regarding any infection control related concerns that were current QAPI plans, or anything related to the ongoing COVID-19 outbreak that began November 23, 2021. The ANHA stated "it's not" part of any QAPI's that have been brought up in the QAP meetings. The ANHA stated there was a separately held infection control (IC) meeting. The surveyor inquired to the ANHA if she attended the IC meeting and she responded "no". The surveyor asked if infection control issues should be part of the QAPI program an she stated "not really". The surveyor asked the ANHA to confirm if there were any additional QAPI plans related to infection control. The ANHA showed the surveyor the document that confirmed the only infection	F 865

F 865	<p>Continued From page 227</p> <p>control parameter that was currently monitored by the QAP was for the COVID-19 boosters. The surveyor asked the ANHA if the QAP had been aware of the concerns regarding the lack of contact tracing, and COVID-19 testing that was identified during the current survey, and the ANHA stated "no". The surveyor inquired to the ANHA if antibiotic use was tracked and reported at the QAPI meetings. The ANHA stated that antibiotic stewardship was not part of the QAPI meeting, and stated that the IC/RN was focusing on urinary tract infections only regarding the antibiotic stewardship, however, the IC/RN should be tracking all infections. The surveyor inquired if any part of the infection control meetings were carried through to the QAPI program, and she stated "no" they were not integrated, and the infection control meeting minutes were not part of the QAP.</p> <p>On 09/02/22 at 10:03 AM, the surveyor interviewed the IC/RN in the presence of the survey team. The surveyor inquired to the IC/RN regarding what current infection control QAPI plans were in place. The IC/RN stated the COVID-19 boosters were the current infection control QAPI. The surveyor asked the IC/RN what was the purpose of the infection control meeting. The IC/RN stated the purpose of the infection control meeting was to discuss infection control issues. The surveyor asked the IC/RN if information discussed at the IC meeting transferred to the QAP. The IC/RN stated she would present numbers of infections, however there was no benchmarks or QAPI plans created. The surveyor asked the IC/RN if QAPI plans were developed regarding any infection control concerns. The IC/RN stated infection control</p>	F 865

F 880	<p>Continued From page 237</p> <p>the facility Infection Preventionist Registered Nurse (IP RN) was asked to provide contact tracing for the residents and staff members who had tested COVID-19 positive. The IP/RN stated that when someone was exposed to COVID-19, she was responsible for completing the contact tracing to identify any close contacts. However, she stated she would not list or include any staff or residents in her contact tracing. She then stated she could not provide any additional documentation related to any staff or residents who may have been exposed to COVID-19 because she kept that information in a "personal notebook." The IP/RN stated that she was "alone, no secretary, no help," and that she "did not" document any potential exposers to COVID-19 that may have occurred to others. The surveyor then requested a list of the exposed close contacts. The IP/RN stated she would not be able to provide a list. The IP/RN also stated that there was "no facility policy or procedure on contact tracing," and she was unaware that she was responsible for completing and retaining any contact tracing documents.</p> <p>On 08/29/22 at 9:32 AM, during an interview with the surveyor, a Licensed Practical Nurse Unit Manager (LPN/UM) in the [redacted] stated that if a resident tested COVID-19 positive, the IP/RN would isolate the resident and do the investigation. She further stated that if a staff member tested COVID-19 positive, they would be sent home, and the IP/RN would do all the paperwork.</p> <p>On 08/29/22 at 9:40 AM, during an interview with the surveyor, the RN Employee Health Nurse stated that she was responsible for the routine</p>	F 880

F 880	<p>Continued From page 238</p> <p>COVID-19 testing for the staff and residents and when a resident would return to the facility. She stated that the IP/RN would complete all contact tracing and that she would not be provided any of the contact tracing information. The RN Employee Health Nurse further stated that contact tracing was important to warn others who were exposed to COVID-19 so that they would be tested.</p> <p>On 08/29/22 at 11:27 AM, the IP/RN provided six incomplete facility "Contact Tracing Forms" for the requested COVID-19 positive staff. The IP/RN again stated to the surveyor that there was "no policy for contact tracing," so she would use the Center for Disease Control and Prevention (CDC) guidance.</p> <p>On 08/30/22 at 10:58 AM, during an interview with the surveyor, the IP/RN stated that the facility had enough testing supplies to perform facility-wide COVID-19 testing. When asked again about documented COVID-19 positive close contacts and the actions taken, the IP/RN stated she would talk to the staff but not write things down. She again stated that she would keep the information in a personal notebook and would "throw out that information when the case was resolved." The IP/RN stated she was unaware of any formal documentation or form to use, so she would not be able to inform the surveyor of the exposed staff or residents or their COVID-19 testing in response. The IP/RN stated that contact tracing would be used to prevent the spread of infection in the facility.</p> <p>On 08/31/22 at 9:37 AM, the IP/RN provided incomplete contact tracing for the requested</p>	F 880

F 880	<p>Continued From page 243</p> <p>exposure would be traced back 48 hours prior for someone who had been within six feet for 15 minutes or more. She further stated, "I know from memory that none of the nurses were." Although, she was unable to provide any documented evidence of interviews, reviews of assignment sheets, or any process related to contact tracing to determine a possible COVID-19 exposure. The IP/RN stated that the facility implemented routine broad based COVID-19 testing. She stated the facility tested the staff thrice a week in December 2021 and the residents once or twice a week. The IP/RN stated she was not sure why that stopped. The IP/RN stated that the "close contacts were not all tested when exposed."</p> <p>On 08/31/22 at 1:12 PM, during an interview with the surveyor, in the presence of the survey team, the facility Licensed Nursing Home Administrator (LNHA) stated the facility was familiar with the process for contact tracing. At 1:14 PM, the IP/RN joined the interview and told the surveyor that it was the facility process for her to keep her notes. The IP/RN further stated that she remembered from December 2021 onward that none of the nurses who cared for the COVID-19 positive residents spent over 15 minutes with the residents and that no treatments were done either. The LNHA stated that what the IP/RN stated was incorrect, and the facility "required formal tracking" (contact tracing). The LNHA further stated that the IP/RN should have conducted the contact tracing at the time of the exposure and not from her "memory." The LNHA stated that the IP/RN's statement that the nurses did not spend more than 15 minutes was "not fully accurate."</p>	F 880

F 880	Continued From page 244 On 09/01/22 at 9:22 AM, during an interview with surveyors in the conference room, the IP RN stated that she consulted with the local health department (LHD) mostly about deaths, not contact tracing. The IP RN stated, "the nurses (facility) I spoke to were in and out" (of the resident rooms); "I should have kept my contact tracing and personal notes," and the IP/RN stated, "we didn't have a policy" for contact tracing. The IP/RN confirmed to the surveyor that there was no facility contact tracing policy and stated, "unfortunately, no." The surveyor inquired to the IP/RN if she was able to confirm if the nurses who tested COVID-19 positive did not spend 15 minutes or more with residents, and the IP/RN stated she "cannot say 100% if the nurses did not stay 15 minutes or more". The IP/RN again stated that contact tracing was important to "not spread the virus in the facility." The surveyor requested communication information from the LHD. A review of the communication with the LHD provided by the IP/RN on 09/02/22 at 9:30 AM, revealed emails sent to the LHD as follows: 01/04/22, the IP/RN asked for a meeting, and the LHD asked for her concerns; 01/25/22 the IP RN asking for clarification if she needed to test the roommate of a COVID-19 positive resident and would she need to test again in 48 hours; 04/22/22 the IP/RN asking about quarantining residents not up to date with COVID-19 vaccinations in response to COVID-19 positive residents on the same unit; and 07/18/22 regarding staff going on vacation and coming back COVID-19 positive if they would need to be reported. The IP/RN could not provide any	F 880

F 880	<p>Continued From page 245</p> <p>communication to her from the LHD regarding guidance on contact tracing.</p> <p>On 09/02/22 at 9:47 AM, the IP/RN stated that if someone tested COVID-19 positive on a "Saturday," she was told she could wait until Monday but could not state who gave her that directive. She stated, "the nurses on the weekend would verbally" tell her, but there was no documentation regarding the conversation. The IP/ RN acknowledged that close contacts should have included visitors, and physicians, therapy staff but that she did not have documentation that they were ever included on the contact tracing forms.</p> <p>On 09/02/22 at 11:34 AM, during a telephone interview with the survey team, the Medical Director (MD) stated he started at the facility in July 2022. He stated that he had not had any discussions about contact tracing yet, but he was aware of the facility statistics. The MD further stated that he had finished reviewing the Infection Control manual, which was not complete regarding close contacts, and that it would be on the agenda to discuss with the IP RN during their next meeting.</p> <p>On 09/02/22 at 12:04 PM, during an interview with two surveyors, the Assistant Nursing Home Administrator (ANHA) stated she was responsible for the oversight of the IP/RN. She stated her responsibilities were to ensure that the IP/RN completed her job functions and was supported. The ANHA stated a form should be used regarding contact tracing and that the IP/RN had no choice but to follow the facility directives and complete the form. The ANHA</p>	F 880

F 880	<p>Continued From page 254</p> <p>LPN removed her gloves, placed the packet of 4x4 gauze, and the extra border gauze on the table, removed the table's barrier, placed it into the plastic bag, and discarded the plastic bag.</p> <p>The surveyor observed the LPN holding the pen and scissors in her hand as she went to the sink, placed the pen in her pocket, placed the scissors on the side of the sink, and washed her hands for 30 seconds. The LPN went to the treatment cart, wiped the scissors with disinfectant wipes, and placed the scissors in the treatment cart. The LPN stated to the surveyor that the treatment was completed and signed for the treatment order. The surveyor observed that the LPN did not disinfect the overbed table when the treatment was finished.</p> <p>On 08/25/2022 at 09:25 AM, the surveyor discussed the above observations with the LPN, who stated she did not change her gloves because the wound was exposed and did not have to remove an old dressing. The LPN stated that she should not have reached into her pockets with gloved hands to remove the pen and should have cleaned it before placing it into her pocket. The LPN stated the pen was contaminated, and cleaning the pen would have prevented cross-contamination.</p> <p>On 08/25/22 at 10:10 AM, the surveyor interviewed the Registered Nurse/Charge Nurse (RN/CN) of the Liberty Unit, who stated she would have cleaned the wound, removed her gloves, and washed her hands. The RN/CN stated that it would be an infection control issue if a nurse did not change their gloves after cleansing a wound. The RN/CN stated that</p>	F 880

F 881	<p>Continued From page 257</p> <p>Based on interview and document review, it was determined that the facility failed to ensure: 1.) full implementation of the Antibiotic Stewardship (AS) program, including ongoing monitoring, and 2.) consistent use of a nationally recognized surveillance criteria prior to consulting with the prescriber as per facility policy. The deficient practice occurred for 3 of 3 months reviewed (May 2022, June 2022, and July 2022) for AS and was evidenced by the following:</p> <p>Refer to F865 F</p> <p>1.) On 08/30/22 at 10:27 AM, the surveyor interviewed the Infection Preventionist Registered Nurse (IP/RN) regarding the AS program. The IP/RN stated that the AS program was started in either 2018 or 2019 and was being "re-launched." The IP/RN informed the surveyor that the Situation Background Assessment-Recommendation (SBAR), a nationally recognized tool with criteria used to evaluate clinical status prior to communication with prescriber to determine the appropriateness of antibiotic use for an infection, was only used to track Executive Order 26, 4.b). The IP/RN stated that the AS policy "was not being followed." She stated that the nurses were not consistently documenting symptoms in the resident charts, and staff were not consistently utilizing the SBAR form for Executive. The IP/RN stated when the SBAR had not been utilized, that she then asked the nurses for documentation of symptoms after an antibiotic had already been prescribed for a Executive. The IP/RN confirmed that the specific SBAR for Executive criteria should have been completed prior to any resident receiving a prescribed antibiotic.</p>	F 881	<p>Element One - Corrective Actions</p> <ul style="list-style-type: none"> > The Antibiotic (ABT) Stewardship program was reviewed and updated by the facility ICP and IC consultant to include nationally recognized surveillance criteria. Staff received re-education as appropriate regarding the revisions. > The facility ICP job responsibilities and roles were re-defined. Additional staff were identified to assure ABT stewardship program is fully implemented > Staff were re-educated regarding completion of an SBAR with any type of infection prior to MD communication > IC consultant works with the facility ICP to ensure compliance with IC standards of practice and regulations > The IC consultant and facility ICP established ABT tracking tools and are utilizing antibiograms and pharmacy ABT reports to track and trend infections and use of antibiotics. <p>Element Two - Identification of at risk Residents</p> <ul style="list-style-type: none"> > All Residents have the potential to be affected by this practice. <p>Element Three - Systemic Change</p> <ul style="list-style-type: none"> > All four phases of the ABT Stewardship program were implemented and staff received education as appropriate regarding the changes. > Nursing staff were re-educated about the process for completion of an SBAR. > Completion of an SBAR when an infection is suspected and the follow up requirements when ABTs are ordered has

F 881	<p>Continued From page 258</p> <p>On 08/31/22 at 10:23 AM, the surveyor interviewed the IP/RN regarding the process for determining when a new antibiotic would be ordered for a resident. The process included: reviewing the supervisor report book every morning to determine new antibiotic orders, and then she walked from unit to unit and checked the 24-hour report book for new antibiotics that had been ordered. The IP/RN stated if a new antibiotic was ordered, she would check the resident's medical record for documentation that may have included any symptoms or associated labs to justify antibiotic use. The IP/RN stated then she would make hand-written notes on the "Orders for Antibiotic" pharmacy report as a system of record keeping. The IP/RN stated that if an antibiotic was not reported on either of the books she reviewed, then she printed another pharmacy report (Orders for Antibiotics) on the Monday of the following week. The IP/RN stated, "if a symptom was not documented, I do not count it as facility acquired infection." She stated there were no SBARs currently being utilized for any other infections other than UTIs</p> <p>A review of the "Order for Antibiotics" provided by the IP/RN, which included the IP/RN's handwritten documentation for antibiotics active between 07/01/22 through 08/01/22, revealed residents with pneumonia, upper respiratory infections, skin infections, eye infections, and UTI's. The infections did not have corresponding SBARs completed prior to contacting the prescriber, or additional documentation.</p> <p>Further review of the last three months of antibiotics tracking reflected the following:</p>	F 881	<p>been incorporated into the facility clinical orientation program.</p> <p>Element Four - Quality Assurance > The facility ICP/Designee will conduct audits weekly X 4 weeks, then monthly ongoing of new infections and corresponding completion of SBARs and review of corresponding ABT orders. Findings will be provided to the DON for review and action. Results will be reported in aggregate at the quarterly QAPI committee meeting for direction and further action as appropriate.</p>

F 881	<p>Continued From page 261</p> <p>SBAR for UTIs and no usage for all other infections.</p> <p>On 9/02/22 at 12:17 PM, during an interview with two surveyors, the Assistant Nursing Home Administrator (ANHA #2) stated they were in Phase 3 and did not have a fully implemented AS program. ANHA #2 acknowledged that the surveillance program would not be accurate without utilizing an SBAR consistently for all infections.</p> <p>A review of the "Infection Control Committee Meeting" minutes with 14 facility staff members, dated July 20, 2022, included but was not limited to: a meeting was held (date unknown) with the Infection Control nurse and [redacted] infection control consultant. The AS policy was being revised; 12 facility acquired infections in June 2022, and it was noted that "several" UTIs were noted without any symptoms noted. "SBARs were not completed for any of the urinary tract infections." The meeting failed to document all the infections which required antibiotics.</p> <p>During a review of the facility policy titled Infection Control Program Policy Statement, under Procedure, indicated: "The Infection Control Committee of the facility shall include representatives of at least administration, nursing, medical, dietary, housekeeping services and pharmacy who, under the direction of a qualified infection Control Nurse shall develop and implement an Infection Control program ..."</p> <p>A review of the facility provided, "Infection Prevention Manual" dated 3/21/22, included but was not limited to Nursing Staff in the event of a</p>	F 881

F 886	<p>Continued From page 278</p> <p>On 08/29/22 at 8:39 AM, during an interview with the surveyor, the facility IP/RN was asked to provide contact tracing for eight residents reviewed between 12/28/21 through 08/16/22 and for six staff members reviewed from 08/01/22 through 08/16/22, all were noted on the facility line-list as have been tested COVID-19 positive. The IP/RN stated that when someone was exposed, she would do the contact tracing but would not list the staff or residents. She stated she could not provide any documentation of staff or residents who may have been exposed because she kept that information in a personal notebook. She further stated that she was "alone, no secretary, no help" and that she did not document the exposed people. The IP/RN stated that she also followed the facility's Outbreak Response Plan.</p> <p>On 08/29/22 at 9:32 AM, during an interview with the surveyor, a Licensed Practical Nurse Unit Manager (LPN/UM) in Liberty Unit stated that if a resident tested COVID-19 positive, the IP/RN would isolate the resident and do the investigation. She further stated that if a staff member tested COVID-19 positive, they would be sent home, and the IP/RN would do all the paperwork. The LPN/UM further stated that she was unsure if testing was done when someone was exposed, but she knew the facility had a team to do routine testing of the residents and staff.</p> <p>On 08/29/22 at 9:40 AM, during an interview with the surveyor, the RN Employee Health Nurse stated that she was only responsible for routinely testing the staff and residents and, upon return to</p>	F 886

F 886	<p>Continued From page 285</p> <p>roommate of a COVID-19 positive resident and would she be required to retest in 48 hours and the IP/RN added according to an attached policy (not provided), she would say no; 04/22/22 the IP RN asking about quarantining residents not up to date with COVID-19 vaccinations in response to COVID-19 positive residents on the same unit, and 07/18/22 regarding staff going on vacation and coming back COVID-19 positive if they would need to be reported.</p> <p>On 09/01/22 at 9:34 AM, during an interview with the surveyors, the IP/RN stated that not all the staff were tested at the facility. She stated some would go elsewhere to get tested, but they would have to let her know. The IP/RN again stated she did not keep the contact tracing or testing documentation. She stated that the documents should have been kept, but most of the contact tracing was done by her, and in December, she was "getting like 10 positives (COVID-19) a day". The IP/RN could not provide any documented evidence of COVID-19 testing performed outside of the facility.</p> <p>On 09/02/22 at 9:47 AM, the IP/RN stated that if someone tested COVID-19 positive on a "Saturday," she would "wait until Monday." She stated, "the nurses on the weekend would verbally" tell her (who was exposed), but there was no documentation regarding the conversation. The IP/RN acknowledged that close contacts should have included visitors, physicians, and therapy staff but that she did not have documentation that they were ever included on the contact tracing forms to be tested.</p> <p>On 09/02/22 at 11:34 AM, during a telephone</p>	F 886

F 886	<p>Continued From page 286</p> <p>interview with the survey team, the Medical Director (MD) stated he started working at the facility in July 2022. He stated close contacts should be tested within 48 hours, but if symptomatic, test immediately "per my thought process."</p> <p>On 09/02/22 at 12:04 PM, during an interview with two surveyors, an Assistant Nursing Home Administrator (ANHA) stated she oversaw the IP/RN. She stated her responsibilities were to ensure that the IP/RN did her job and was supported. The ANHA stated there was a form regarding contact tracing and that the IP/RN had no choice but to follow the facility's directives. The ANHA stated that the contact tracing form should be done "that day" (the day of exposure). The ANHA stated that the form should have included more than Certified Nursing Assistants (CNAs). She further stated that if they (the close contact staff) were not documented, "how do we know" (testing was done). The ANHA stated that if someone tested positive on a Saturday, the close contacts should be tested immediately and not wait until Monday. She stated that the contact tracing forms were done to prevent the spread of infection and that an exposed close contact should not have worked until they were tested. The ANHA also stated that staff should not be going outside the facility for testing and not showing proof because they could have exposed others.</p> <p>On 09/06/22 at 11:31 AM, the surveyor attempted to reach the two staff at the LHD who were named as contacts by the IP/RN. Two phone messages and an email were sent. The LHD never responded to the surveyor.</p>	F 886

F 886	<p>Continued From page 288</p> <p><small>Executive Order 26, 4.b.</small> The <small>Executive Order 26, 4.b.</small> was dated <small>Executive Order 26, 4.b.</small>, six days post exposure. No follow up tests were provided.</p> <p>On 09/06/22 at 12:03 PM, during a follow-up interview with the survey team, the IP/ RN was asked again if she had received any guidance from the LHD, given the facility had been active COVID-19 outbreak since 11/23/21. The IP RN stated that she would have to check her emails, but she believed the LHD may have sent her links to reference.</p> <p>At 12:13 PM, the IP/RN presented the surveyor with additional guidance from the LHD dated 01/19/22, which had not been provided previously. The IP/RN and the surveyor reviewed the guidance in part, which included but was not limited to: if the facility can perform contact tracing and can identify close contacts, testing should be done as follows: staff ...with exposure with COVID-19 positive individual, residents ...who had close contact with a COVID-19 positive individual. If the facility is unable to perform contact tracing and is unable to identify close contacts, testing should be done as follows: staff ...test all staff facility wide or at a group level if staff are assigned to a specific location where the new case occurred. Residents ...test all the residents facility-wide or at a group level if staff are assigned to a specific location where the new case occurred. The IP/RN stated she had stopped doing "things this way" because the facility was short staffed. So if someone tested positive over the weekend, they (facility staff) were short staffed, so nobody was immediately tested. The IP/RN stated, "we were told to just do routine testing" by the administration. The IP/RN</p>	F 886

F 886	<p>Continued From page 292</p> <p>contact," which refers to someone who has been within 6 feet of a COVID-19 positive person for a cumulative total of 15 minutes or more over a 24-hour period. Guidance - To enhance efforts to keep COVID-19 from entering and spreading through nursing homes, facilities are required to test residents and staff based on parameters and a frequency set forth by the HHS Secretary. The testing summary included that for newly identified COVID-19 positive staff or residents in a facility that can identify close contacts, the facility should, regardless of vaccination status, test all staff that had a higher-risk exposure with a COVID-19 positive individual and test all residents who had a close contact with a COVID-19 positive individual. Testing during an outbreak revealed that upon identification of a single new case of COVID-19 infection in any staff or residents, testing should begin immediately. Facilities have the option to perform outbreak testing through two approaches, contact tracing or broad-based (e.g., facility-wide) testing. Documentation of testing that upon identification of a new COVID-19 case in the facility, document the date the case was identified, the date that other residents and staff are tested, the dates that staff and residents who tested negative are retested, and the results of all tests.</p> <p>The facility failed to follow this CMS directive by not recognizing all who may have been a close contact, not testing all close contacts within the time frame provided, not retaining original records, and not providing follow up tests to all close contacts who had an initial negative COVID-19 test result.</p> <p>NJAC 8:39- 19.1(a); 19.2(a)(c)</p>	F 886
