E 000	Initial Comments	E 000			
K 000	<p>INITIAL COMMENTS</p> <p>A Life Safety Code Survey was conducted by the New Jersey Department of Health, Health Facility Survey and Field Operations on 12/28/21, was found to be in noncompliance with the requirements for participation in Medicare/Medicaid at 42 CFR 483.90(a), Life Safety from Fire, and the 2012 Edition of the National Fire Protection Association (NFPA) 101, Life Safety Code (LSC), Chapter 19 EXISTING Health Care Occupancy</p> <p>The facility is a 4-story building that was built in 2005. It is composed of Type III protected. The facility is divided into 11 smoke zones. The generator does approximately 80% of the building. The facility has a current Covid-19 outbreak.</p> <p>The facility utilized 1135 waivers allowing for regulatory flexibilities during the Public Health Emergency for routine inspection, testing and maintenance requirements beginning January 31, 2020. The flexibilities did not extend to the following items: fire pump weekly/monthly testing, fire extinguisher monthly inspections, fire fighter operation monthly testing for elevators, monthly testing of generators, and daily inspection of the means of egress in areas of construction, repair, alterations or additions.</p>	K 000

Any deficiency statement ending with an asterisk (\*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients. (See instructions.) Except for nursing homes, the findings stated above are disclosable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.

K 293 SS=D	Exit Signage CFR(s): NFPA 101  Exit Signage 2012 EXISTING Exit and directional signs are displayed in accordance with 7.10 with continuous illumination also served by the emergency lighting system. 19.2.10.1 (Indicate N/A in one-story existing occupancies with less than 30 occupants where the line of exit travel is obvious.) This REQUIREMENT is not met as evidenced by: Based on observations on 12/28/21, in the presence of the Regional Plant Operations Director, it was determined that the facility failed to maintain exit directional signs to be illuminated and to accurately direct residents, staff, and visitors to an exit. This deficient practice was evidenced for 1 of 14 exit signs observed by the following:  At 10:42 AM, the surveyor observed that the [REDACTED] exit sign in the employee exit/egress corridor was obstructed from view by 5 ceiling mounted light fixtures with approximately an 18" ceiling mounted pole, installed in the center of the exit/egress corridor along with the the ceiling mounted exit sign.  The Administrator was informed of the finding at the Life Safety Code exit conference on 12/28/21.  NJAC 8:39-31.1(c), 31.2(e)	K 293	1. Exit sign in the employee exit/egress corridor will be repositioned to ensure view will not be obstructed. This deficient practice could affect anyone searching for egress in that area.  2. All exit/egress signs in the building will be audited to ensure view is not obstructed. regional plant operations director to provide education on exit/egress visibility requirements to the maintenance department.  3. Maintenance technician/designee to conduct monthly audit for 3 months to ensure exit/egress signs are unobstructed and in view.  4. Administrator to monitor and review the monthly audits during quarterly QA meeting for 3 to ensure compliance.	2/4/22
